

DistilaMax® AG

DistilaMax® AG was selected in Mexico on *blue agave* juice using tequila production conditions.

SENSORY PROFILE

DistilaMax® AG has an excellent aromatic profile highlighting the quality of the raw material. On the nose, it is described as fruity with herb character, floral, complex, with notes of acidity enhancing the aromas. On the palate, the spirit is described as rich and well-balanced.

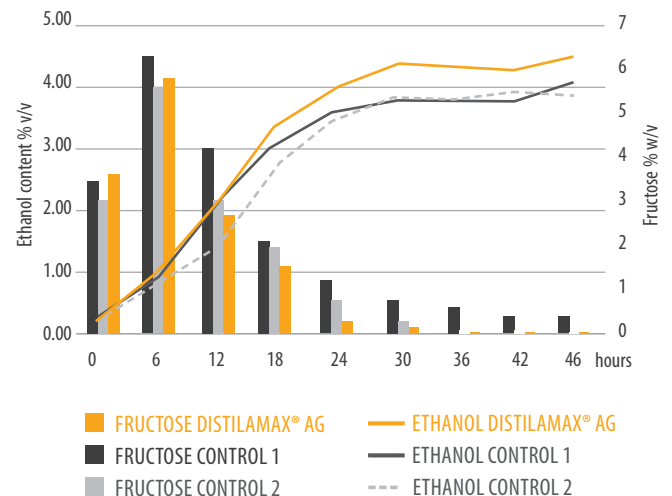

FERMENTATION

During the work of selection of DistilaMax® AG, the kinetic of fermentation and the final fructose level were two criteria of success.

Kinetic of fermentation and fructose concentration on agave juice fermentation

Selection of DistilaMax® AG Mexico 2023
